

Pre Solid-state Ionics Symposium

on 25th (Mon) Nov., 2019

at Lecture Room 111 of Institute for Materials Chemistry and Engineering
by Transdisciplinary Research and Education Center for Green Technologies

13:30 - 14:30 "Non-Oxides for Li-ion Batteries; New Materials and New Processes"

Prof. Duncan Gregory (The University of Glasgow)

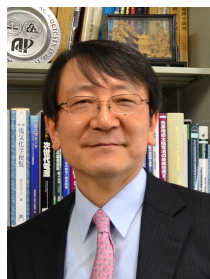

14:40 - 15:40 "Mössbauer Study of Conductive Vanadate Glass and its Application
for A Cathode Active Material of Na-ion Battery"

Prof. Shiro Kubuki (Tokyo Metropolitan University)

15:50 - 16:50 "From Ionic Liquids to Solvate Ionic Liquids and Beyond"

Prof. Masayoshi Watanabe (Yokohama National University)
